EXIT BISMARCK.

The last act in the great change inaugurated by the young Kaiser in the personnel of his assistants in governing his immense Empire was performed yester-day. The iron old Prince, who has held the reins of power so long that it seems wonderful his fingers could relax their sold, drove through the Unter der Linden to his farewell audience with his immerial master.

Men cheered, women threw flowers and waved their handkerchiefs, and tears flowed down the bronzed cheeks of Prince BISMARCK as he thanked the people with a faltering voice for this exhiion of their devotion to him.

Phree-quarters of an hour later he left the Emperor, and he declares that he will never visit Berlin again. In the charming solitude of Freidrichsrube the old msn can ruminate through his last years on the transitory glory of the world. His hand has lost its hold upon the German helm.

Some Very Hard Blows at Petticoats, Suspenders and Corsets.

Mrs. Jenness Miller, the queenly exponent of the school for physical culture, gave a morning lecture at noon yesterday in Harman Hall, where she dealt petticoats, suspenders, corsets and fat women some very hard blows.

It was late when she appeared, but tardiness is the prerogative of beauty and culture. Every seat was filled with an audience comprising would be or full fledged the best solection. physical culturalists. NERVOUSNESS.

Nervous Debility, Shuttered Nervos and Wenk Bedies.

Hundreds of thousands of people are nervou housands upon thousands suffer from mental able nerves, steep'e sness, gloomy de-pression of mind and exhaustion of nerve power. They do not realize the dangerous gravity of their condition nor the fearful results of neglect

of these graptoms.

It is nerse and broth exhaustion which makes the brain tired, the arm nerveiess, the limbs trembling, the muscles weak, and the whole body without strength, energy or amb tion. It is loss of nerve and vital power which is slowly, but surely, sapping the very life itself, and unless help is sought from the right source, the end will be shattered nerves, insentry with softening of the brain, paralysis or death.

Nature in her boundless mercy has provided for these conditions, and fresh from the bosom of the earth yields the nerve-strengthening, nerve-invigorating, health-restoring vegetable medicines which certainly and unfailingly cure these terrible nervous diseases. These value medicines have been prepared and compounded into the wonderful remedy, Dr. Greene's Newvurs, the great nerve invigorant and health restorer. which is acknowledged everywhere to be the greatest perve remety in existence and the

Owing to the wonderful curative effects of Dr.
